

bema 11 Multi-Clean

MULTIFUNCTIONAL USE

Pushes silage, snow, mud, dirt, grit, corn and more

The bema 11 Multi-Clean push broom can be used multifunctionally and is extremely high-quality and robust. The 11 rows of bristles sweep both loose and stuck dirt. The bema 11 Multi-Clean block broom is also ideal for sweeping gravel or sand. The sliding brush can be easily attached and unattached, conveniently and quickly.

FEATURES

- ✓ **Strong cleaning performance as a result of 11 rows of bristles (PPN, bristle height 280 mm):**
For coarse and fine dirt (fine & coarse bristles are mixed, also available as just fine or just coarse); very good self-cleaning as a result of the pendulum suspension of each row.
- ✓ **Robust construction for a long service life:**
Very stable and torsion-resistant design. Supporting legs are optionally available.
- ✓ **Convenient and easy to handle:**
Attachment and removal to the carrier vehicle takes place quickly and conveniently. Only two bolts need to be loosened in order to replace individual rows of bristles.
- ✓ **Versatile use on flat and rough surfaces:**
Suitable for a wide variety of dirt and tasks, e.g. for dirt, mud, chippings, corn, silage, for sweeping gravel/sand or for sweeping snow.

CARRIER VEHICLES

-  Wheel loader up to 12 t
-  Telehandler
-  Yard loader
-  Forklift (standard)
-  Tractor (front/rear)
-  Compact tractor (front/rear)
-  Excavator shovel attachment

Sweeping animal feed is no problem with the bema 11 Multi-Clean

The push broom convinces with 11 rows of bristles

Use in winter service: bema 11 Multi-Clean on a wheel loader

Pushing silage with the bema 11 Multi-Clean
